

POKÉMON  
REBIRTH

King of Kings

Sudo, get down from there!

Wait, wait... I'm getting inspiration!

Pillars like these would be just PERFECT in my Trick House!

Waugh!

\*sigh\*

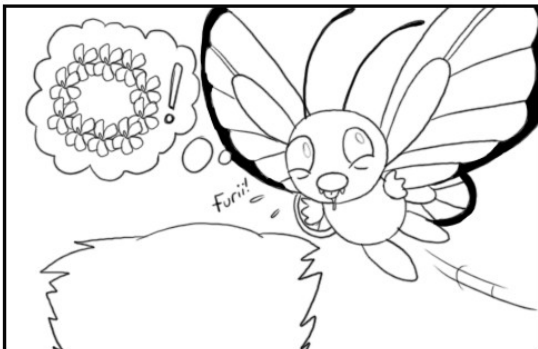

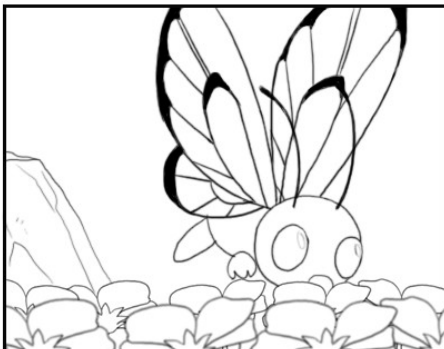

To think these beautiful blooms have been hidden under the ground all winter,

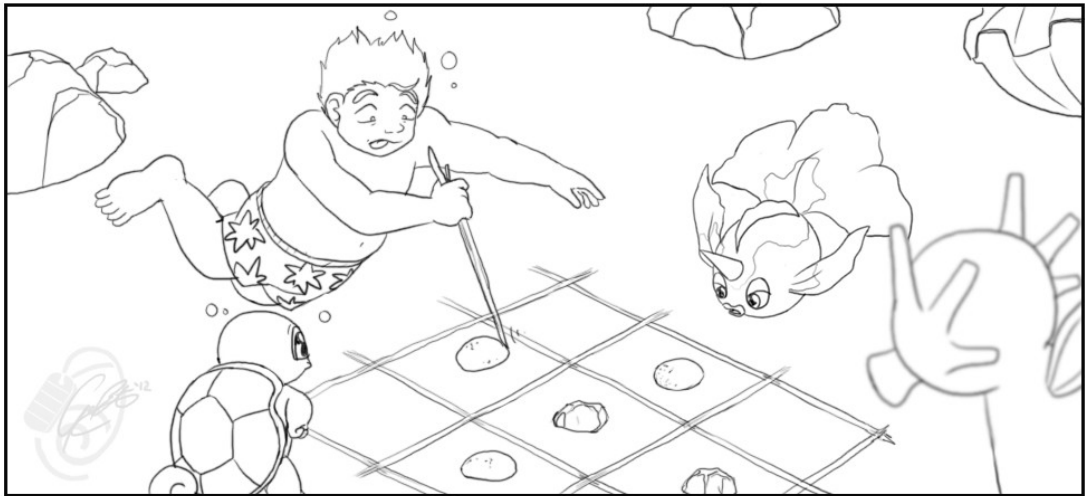

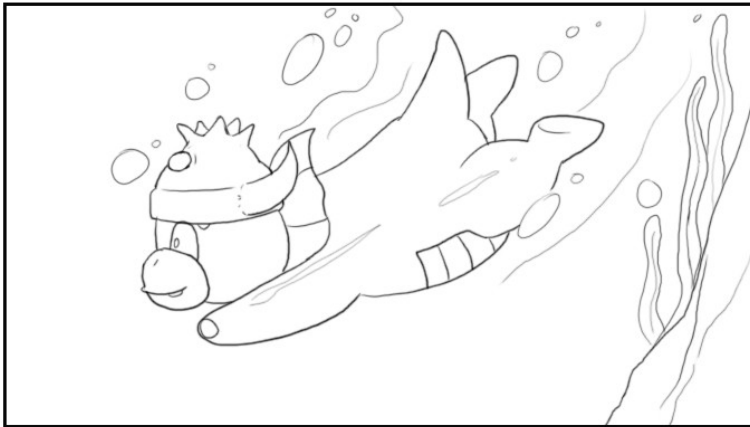

Hibernating... waiting for the moment to emerge into the sunlight-

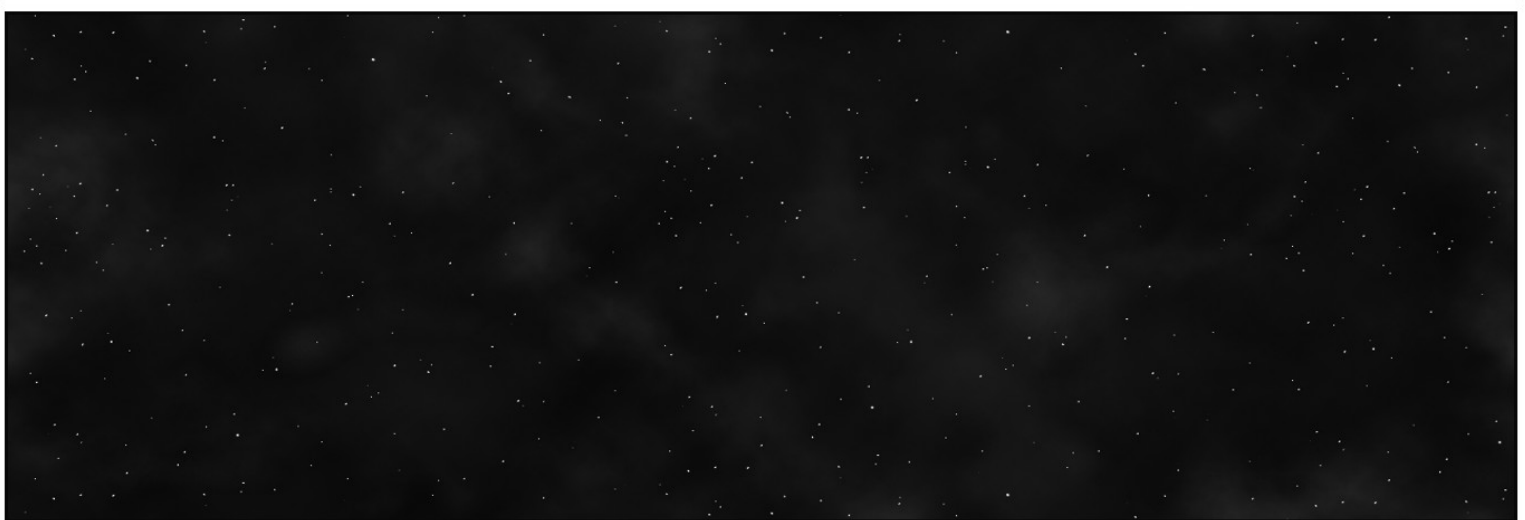

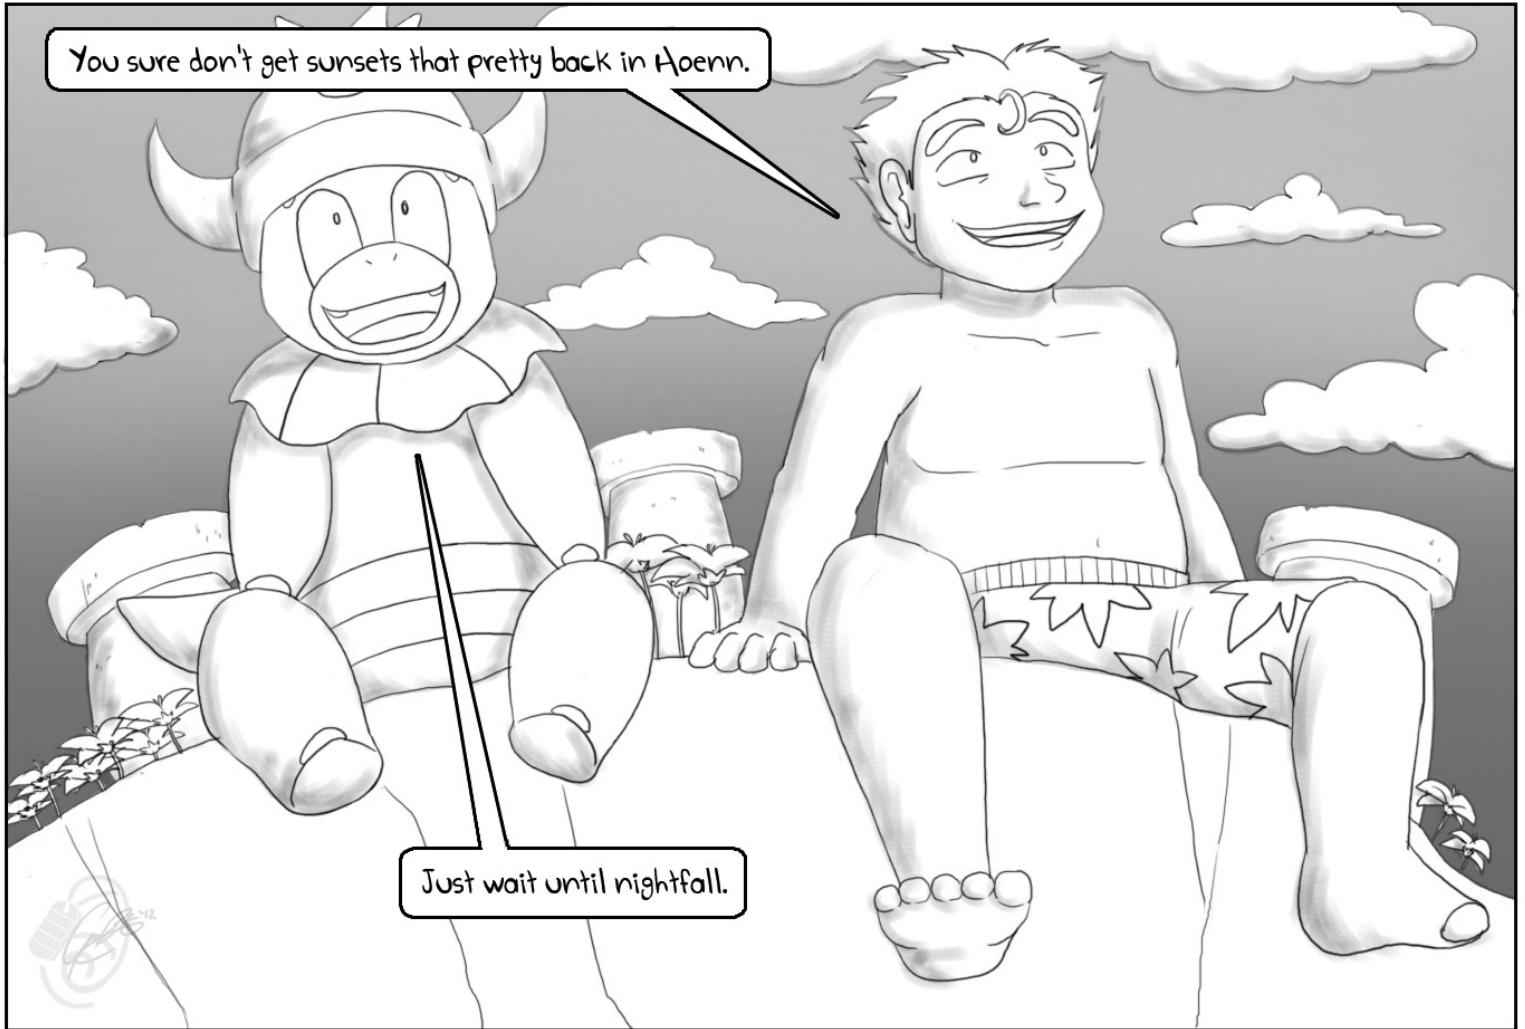

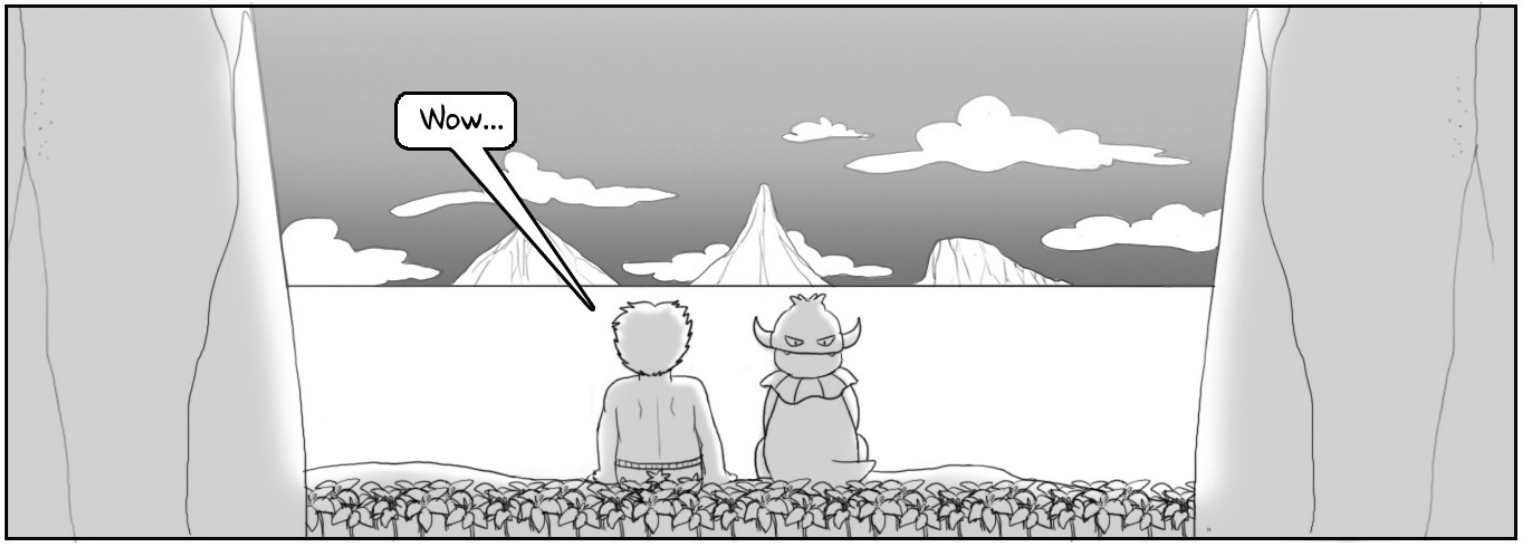

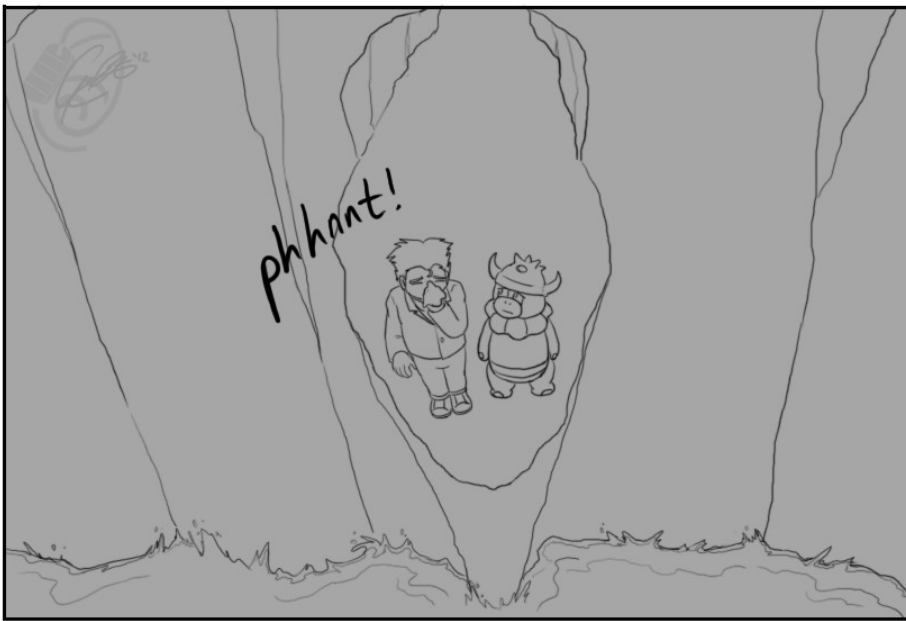

Look, Pokey! I made a wreath!

...they might have done better to have stayed under ground.

The week has passed so quickly. I have to go back home tomorrow.

I understand.

It's so lonely sometimes... Vernon is always too busy doing research to hang out.

Couldn't you come back with me and help with the Trick House instead?

Oh you know city folk wouldn't accept a talking pokémon.

You wouldn't have to talk around them...

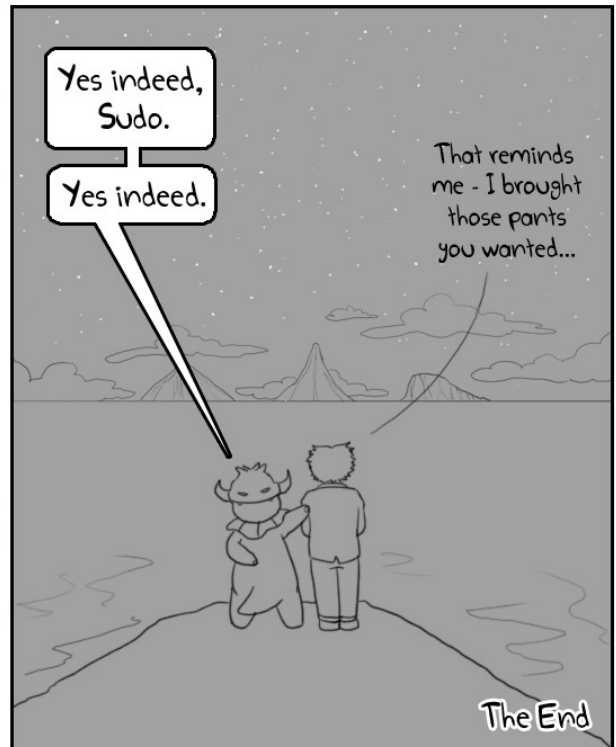

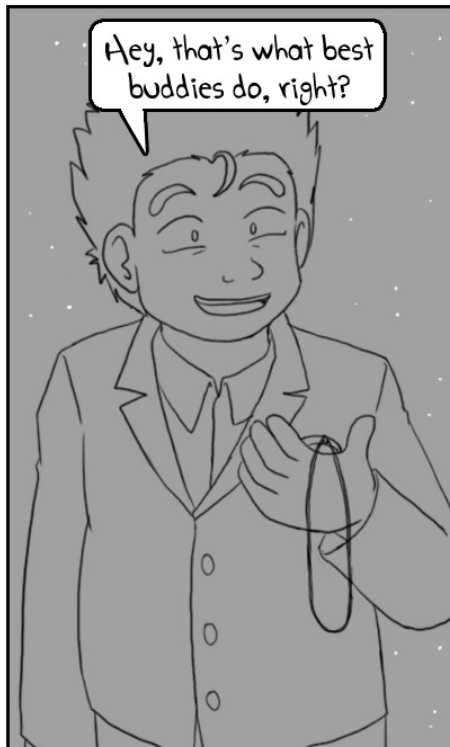

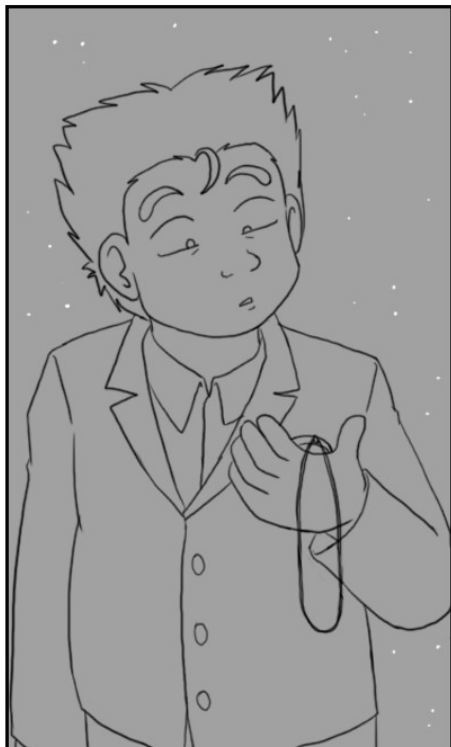

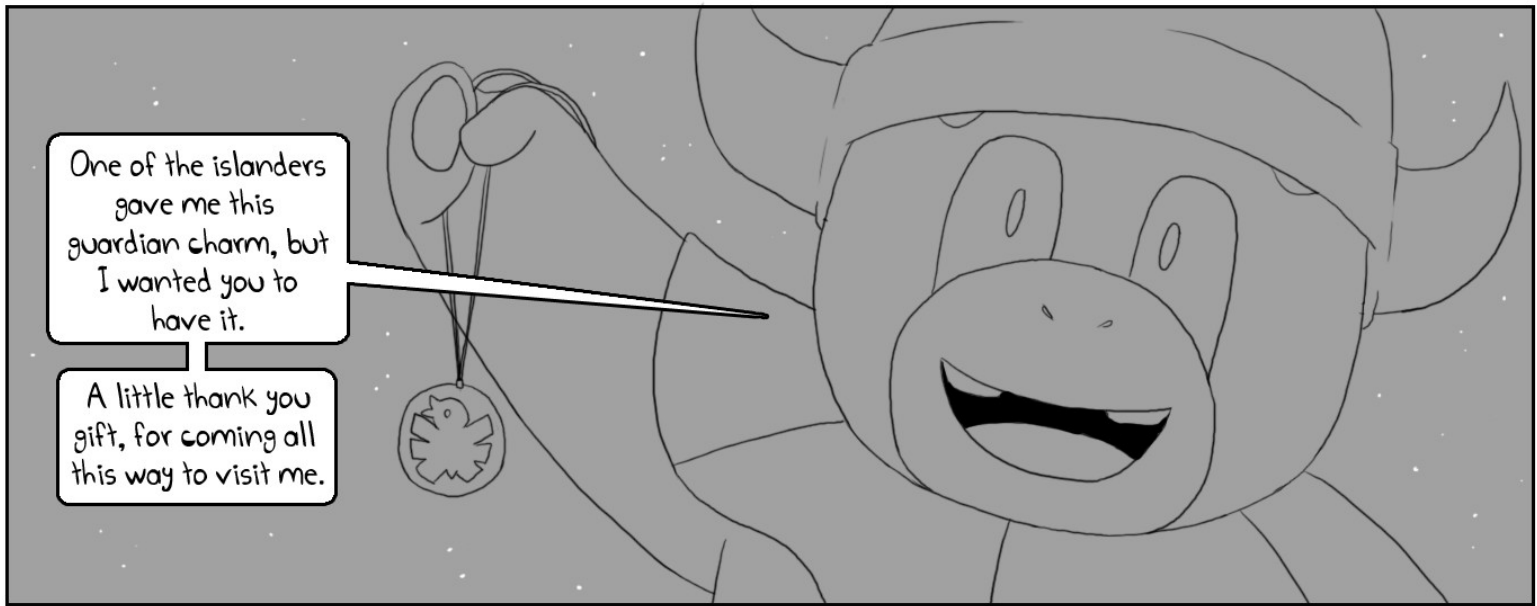

Sudo...you're a wonderful, kind-hearted friend. Keep doing what you do best.

I have to do the same. And I'm needed here, as ambassador to the Kings of the Legendary Bird trio.

A King of Kings, huh.

You could say that.
